ABOUT ME

Full Stack Web Developer with hands-on experience building production features at Kontext21 (Berlin startup). Specialized in MERN stack applications with expertise in React, Node.js, and MongoDB. Completed intensive 6-month bootcamp followed by 3-month international internship. Seeking full-time or remote positions across Europe where I can contribute to impactful web applications while continuing to grow technically.

PROFESSIONAL EXPERIENCE

Software Developer Intern | Kontext 21 (Ironhack Talent Acceleration Program)

03/2025 – 06/2025

Kontext 21

Berlin, Germany

- Developed SDK playground demo using React and Node.js to showcase product capabilities to potential clients
- Built cross-platform Electron desktop application for screen recording and activity documentation, self-learning Electron framework within project timeline
- Collaborated in agile sprints with founding team in Berlin startup environment, delivering production-ready features

EDUCATION

Full Stack Web Development

08/2024 – 02/2025

Ironhack

Intensive 500+ hour program covering MERN stack, agile methodologies, and full-stack development.

Full Stack Engineer

01/2023

CodeCademy

Self-directed online coursework in JavaScript fundamentals and web development.

SOFT SKILLS

Communication | Time Management | Problem Solving | Adaptability | Attention to Detail | Collaboration

LANGUAGES

Portuguese | English | Spanish

CERTIFICATES

Full-Stack Web Development

Provided by IronHack

28/08/2024 - 22/02/2025

Web Development

Provided by Sololearn (2023/2024)

JavaScript Intermediate

Provided by Sololearn (2023/2024)

EF SET English Certificate

C2 Proficient

PROJECTS

Pawkeeper

01/2025 – 02/2025

Full-stack pet-sitting marketplace built with React.js and Node.js featuring JWT authentication, Socket.io real-time messaging, MongoDB database with Mongoose ODM, and user review system. Implements RESTful API architecture with Express.js backend. Deployed on Render (backend) and Netlify (frontend) with MongoDB Atlas.

Live demo

Exhibitly

12/2024 – 12/2024

React.js media library with external API integration (TMDB for movies, Spotify for music), implementing search/filter functionality, SASS styling, and simulated REST backend using JSON Server. Demonstrates asynchronous JavaScript (ES6+) and API data handling with Axios.

Live Demo

Primal

10/2024 – 10/2024

Browser-based retro game showcasing vanilla JavaScript (ES6+) fundamentals including collision detection algorithms, score tracking with localStorage, responsive keyboard controls, and CSS animations. Built without frameworks to demonstrate core JavaScript proficiency.

Live Demo [↗](#)

TECH STACK

Proficient: JavaScript (ES6+), React.js, Node.js, Express.js, HTML5, CSS3

Experienced: MongoDB, Mongoose, REST APIs, Git/GitHub, Axios

Familiar: Electron, Socket.io [↗](#) , SASS, Postman, Netlify, Render
